# MAXCOMPLETE CUTTING COMPOUND

NEXT-GEN CUTTING COMPOUND FOR HEAVY SCRATCH REMOVAL

SKU

163032

32 OZ.

128 OZ.

163001

**FEATURES & BENEFITS** Malco® Marine MaxComplete next generation cutting compound provides aggressive cutting action for heavy Versatile Formula scratch removal and produces a gloss final finish. This Can be used on Gelcoat, water-based, easy-to-cleanup, emulsion formula is designed

## PERFORMANCE

|               |                                                                                           |
|---------------|-------------------------------------------------------------------------------------------|
| ROLE          | Marine chemical · Compounds & Polishes                                                    |
| CUT / SANDING | P600 and finer sand scratches and light-heavy industrial application oxidation on f (TDS) |
| PH            | 8.4 (SDS)                                                                                 |
| APPEARANCE    | Viscous. · Liquid. · White (SDS)                                                          |
| DENSITY / SG  | Not available. (SDS)                                                                      |
| ODOR          | Petroleum Solvent (SDS)                                                                   |
| VOC           | VOC compliant the cutting pad (TDS)                                                       |

## APPLICATION & PHYSICAL

|                |                                                                                                                              |
|----------------|------------------------------------------------------------------------------------------------------------------------------|
| BUFFING SPEED  | speed between 1800 to 2600 rpm (TDS)                                                                                         |
| FLASH POINT    | 145.0 °F (62.8 °C) (SDS)                                                                                                     |
| TRANSPORT      | DOT Not regulated (SDS)                                                                                                      |
| MDSC SIZES     | 32 oz. (163032), 128 oz. (163001)                                                                                            |
| FEATURES (TDS) | Malco® Marine MaxComplete next generation cutting; Water-based formula; Environmentally friendly for use; Aggressive formula |

## OVERVIEW

**FEATURES & BENEFITS** Malco® Marine MaxComplete next generation cutting compound provides aggressive cutting action for heavy Versatile Formula scratch removal and produces a gloss final finish. This Can be used on Gelcoat, water-based, easy-to-cleanup, emulsion formula is designed fiberglass, painted surfaces and to remove P600 and finer sand scratches and light-heavy industrial application oxidation on fiberglass, gel coat, selected painted surfaces in Water-based formula marine and industrial applications. Environmentally friendly for use in Marinas, safe to use, easy clean-up Aggressive formula

## DIRECTIONS

- 1 Removes fine sand scratches SHAKE WELL BEFORE USING.
- 2 Do not apply in sunlight or and oxidation on warm surfaces.
- 3 Apply a 2" dab of MaxComplete Compound for a 2' x 2' (.6m x .6m) section and spread with VOC compliant the cutting pad.
- 4 Buff at speed between 1800 to 2600 rpm.
- 5 Can be sold in all 50 states

## SAFETY SNAPSHOT

### WARNING

Serious eye damage/eye irritation Category 2A; Flammable liquids Category 4; Acute toxicity, oral Category 5; Acute toxicity, inhalation Category 5; Specific target organ toxicity, repeated Category 2; Combustible liquid. May be harmful if swallowed. Causes serious eye irritation. May be harmful if
