CURE / TO WATER	Product page: up to 24 hours before getting wet · candycoatpro: 30 minutes
PREP	IPA clean · completely dry · do not apply to hot surface
LEVEL	Professional level coating

OVERVIEW

CandyCoat Glass is Car Candy / Ultra-Look's ceramic glass coating for windshields, windows, and mirrors. Manufacturer product page: up to 2 years of super hydrophobic protection; water beads and rolls off to improve rain visibility; dirt, bugs, and ice are less able to stick. NEW AND IMPROVED FORMULA WITH MORE COVERAGE. Flash, cure, and coverage values differ between the product page and candycoatpro.com — both are printed under Application.

DIRECTIONS

- 1 Do not apply to a hot surface.
- 2 Clean glass with IPA and ensure the surface is completely dry before coating.
- 3 Apply a few drops to an applicator pad and spread evenly over a 3' × 3' section of glass.
- 4 Buff off within 10 seconds or less with a clean microfiber towel until no residue remains and glass is clear.
- 5 Allow to cure up to 24 hours before getting the vehicle wet (product page). candycoatpro lists a 30-minute cure.
- 6 Coverage: 5–10 mL for windshield only (directions) · benefits list 10 mL windshield / 20 mL entire car. Once opened, use within 6 months.
