FULL CURE	3 days (product page / candycoatpro.com)
PREP	Prep solvent or 70/30 IPA; surface clean, dry, contamination-free (product page)

OVERVIEW

CandyCoat Trim is a professional ceramic trim coating that rejuvenates faded plastics and trim and protects them from future wear. Manufacturer: durable UV protection that can last up to 3 years. Exterior trim only. Kit is 50 mL plus applicator with micro-suede. Manufacturer documents disagree on flash and time-to-water: product page (dwell 30–60 seconds, 24 h dry) vs candycoatpro.com (no flash, 4–6 h to water). Both printed. Full cure 3 days on both.

DIRECTIONS

- 1 Shake well. Do not apply in direct sunlight. Exterior trim only.
- 2 Surface must be clean, dry, and free from contamination.
- 3 Prep with a prep solvent or 70/30 IPA mixture.
- 4 Prime applicator with 5–6 drops and apply to plastics in a circular motion.
- 5 Dwell 30–60 seconds, then level with a clean microfiber towel (product page).
candycoatpro.com: no flash.
- 6 Keep dry 24 hours (product page) or 4–6 hours to water contact (candycoatpro.com). Full cure 3 days.
