OVERVIEW

Lake Country curved prewashed knitted lambswool pads pair cutting wool with a curved profile and hook-and-loop attachment for working contours without a bolt-on spindle.

DIRECTIONS

1. Mount the pad on a compatible rotary or DA backing plate (or 5/8"-11 spindle for double-sided styles) centered and secure.
2. Apply compound to the pad or panel; start at a controlled speed and keep the pad moving — do not dwell in one spot.
3. For twisted/knitted wool, use a pad spur between passes to break up dried residue as recommended by Lake Country.
4. Clean per Lake Country pad-care instructions (System 4000® / Snappy Clean Boost™ or gentle wash); air dry — hot water can shrink loop/wool.
