

COLLINITE SEALANTS

COLLINITE NO. 435 BLACK STREAK REMOVER

ON-DECK STREAK REMOVER · CLEANS + FAST-BONDING POLYMER PROTECTION

SKU

435

On-deck all-in-one that safely and effectively eliminates black streaks, tough stains, and fresh water spots from fiberglass surfaces while leaving fast-bonding polymer surface protection; preserves an existing coat of Collinite Marine Wax (925, 885, 870, 845) (collinite.com Streak Fixer product page / FAQ).

PERFORMANCE

ROLE	Black streak remover + protector / on-deck detailer (mfr product page)
REMOVES	Black streaks, tough stains, fresh water spots (mfr product page)
PROTECTION	Provides protection as it cleans; fast-bonding polymer additive (mfr product page / FAQ)
SURFACES (YES)	Fiberglass, metal, and painted surfaces (mfr product page)
SURFACES (NO)	Not for glass or upholstery; not designed for oxidation removal or heavily soiled surfaces requiring a pre-wash; not for large surface areas >3x3 ft per mfr feature icons (mfr product page)

APPLICATION & PHYSICAL

USE CASE	On-deck spot treatment for hull-side black streaks and water spots (mfr product page)
WAX COMPATIBILITY	Will not remove existing Collinite Marine Wax coats (925, 885, 870, 845) (mfr FAQ)
OXIDATION	For oxidation / aged gelcoat use No. 920 Cleaner or No. 631 Polishing Compound instead (mfr product page)
PACK SIZE (MFR)	Not published on collinite.com product page — omitted

OVERVIEW

On-deck all-in-one that safely and effectively eliminates black streaks, tough stains, and fresh water spots from fiberglass surfaces while leaving fast-bonding polymer surface protection; preserves an existing coat of Collinite Marine Wax (925, 885, 870, 845) (collinite.com Streak Fixer product page / FAQ).

DIRECTIONS

- 1 Use on fiberglass, metal, or painted surfaces for black streaks, tough stains, or fresh water spots — not glass or upholstery (mfr product page).
- 2 Apply as an on-deck spot treatment; not intended for oxidation removal, heavily soiled surfaces needing a pre-wash, or large areas over ~3x3 ft (mfr product page feature list / description).
- 3 Product leaves fast-bonding polymer protection and preserves existing Collinite marine wax coats (mfr FAQ).
- 4 For oxidation or aged/faded gelcoat, switch to No. 920 Cleaner or No. 631 Polishing Compound (mfr product page).
- 5 Always test first in a small, inconspicuous area (mfr product page tip).
