## GELCOAT FINE CUT

FINE POLISHING COMPOUND FOR GELCOATS AND BOAT PAINTS

SKU

**499001US**

**1 LITER**

Machine polish for the preparation of medium weathered gelcoats and boat paints. For quick and complete removal of medium scratches, e.g. matting from fenders, as well as oxidation, chalking and dull spots.

### PERFORMANCE

|                  |                                           |
|------------------|-------------------------------------------|
| ROLE             | Polish                                    |
| SURFACES / AREAS | Medium weathered gelcoats and boat paints |
| PH               | 8.5 (SDS)                                 |
| APPEARANCE       | Grey · Characteristic (SDS)               |
| DENSITY          | 1.06 g/ml (SDS)                           |
| SOLUBILITY       | Mixable (SDS)                             |

### APPLICATION & PHYSICAL

|               |                                                                                                                                  |
|---------------|----------------------------------------------------------------------------------------------------------------------------------|
| METHOD        | Can be applied using both rotary and eccentric polishing machines.                                                               |
| VOC           | 11,6 % (SDS)                                                                                                                     |
| TRANSPORT     | Not regulated for transport (SDS §14)                                                                                            |
| WARNINGS (PI) | Shake before use. Check for material compatibility before use. Do not use on hot surfaces. Protect from frost and excessive heat |
| MDSC SIZES    | 1 liter (499001US)                                                                                                               |

### OVERVIEW

Machine polish for the preparation of medium weathered gelcoats and boat paints. For quick and complete removal of medium scratches, e.g. matting from fenders, as well as oxidation, chalking and dull spots. Gelcoat Fine Cut can be polished out for a long time and produces a lasting deep shine even on dark gelcoats and paint colors. Light, efficient application and easy polishing. The ideal preparation for a subsequent high-gloss polish. Silicone oil-free. SDS signal word: Warning.

### DIRECTIONS

- 1 Can be applied using both rotary and eccentric polishing machines.
- 2 Apply 5 pea-sized drops to a suitable polishing pad (Fine Cut Pad) and work in a crosswise motion.
- 3 Spread the product on the surface at low speed and then process with a rotary machine at approx.
- 4 1,000 revolutions (with eccentric processing at the highest speed).
- 5 Polish out the polish and remove the last polish residues using a Polish & Sealing Towel.
- 6 We recommend sealing after polishing with Gelcoat Finish, Marine Protective Sealant or Ceramic Boat Hull to close the pores of the surface and to prevent rapid chalking or soiling.
- 7 PI warnings: Shake before use. Check for material compatibility before use. Do not use on hot surfaces. Protect from frost and excessive heat

### SAFETY SNAPSHOT

#### WARNING

Skin Sens. 1 · H317-May cause an allergic skin reaction. · H066-Repeated exposure may cause skin dryness or cracking. · EUH066-Repeated exposure may cause skin dryness or cracking.
