OVERVIEW

Heavy-cut 100% twisted wool compounding pad for removing sanding scratches; recessed cup keeps the backing plate off the surface (Presta). Malco Marine: single-sided 100% wool heavy-cut pad for medium to heavy oxidation; recommended with MaxProduction (#1650), MaxComplete (#1630), SuperCut (#1674), and GelCoat (#1675) compounds.

DIRECTIONS

- 1 Mount the single-sided hook & loop pad centered on a compatible backing plate so the recessed cup clears the plate from the surface (Presta).
- 2 Use with a heavy-cut compound recommended for this pad (Malco Marine lists MaxProduction, MaxComplete, SuperCut, GelCoat compounds).
- 3 Keep the pad moving; do not dwell in one spot. Spur wool as needed between passes.
- 4 Clean and air-dry per shop pad-care practice; manufacturer pad page does not publish a wash procedure.
