DRY GUIDE COAT

DRY GUIDE COAT

SKU

9193500111

BLACK

WHITE

9193600111

Dry guide coat for revealing sanding scratches / high-low during surface prep (OSP context).

PERFORMANCE

TYPE	Dry guide coat
ROLE	Highlight surface imperfections during sanding (Mirka OSP / prep know-how)
PACK (MDSC)	Black, White

APPLICATION & PHYSICAL

MDSC SKU	9193500111
USE	Apply lightly over sanded area; sand until guide coat clears evenly

OVERVIEW

Mirka Dry Guide Coat is used in surface preparation to make sanding scratches and uneven areas visible so technicians can refine the surface before primer or polish stages.

DIRECTIONS

1. Apply a light, even coat over the work area.
2. Sand until the guide coat is uniformly removed from highs; remaining color shows lows/scratches.
3. Clean residue before coating.
4. Consult SDS if chemical hazards are listed for your pack.

SAFETY SNAPSHOT

**SEE PRODUCT SDS IF AVAILABLE
— AVOID INHALATION OF
POWDER**

Dedicated SDS URL not retrieved — check Mirka downloads for current SDS.

FORM Dry guide coat

Manufacturer SDS not retrieved for this article (many abrasives/tools are articles) or see Mirka downloads / local archive.
