MDSC SKU	AH-232-040
USE	Heavy-duty sanding — paint stripping, hardwood, lacquers (mfr)
DUST EXTRACTION	Net structure for dust-free sanding with Mirka extractors (mfr)

OVERVIEW

Abranet® Ace HD uses ceramic grains on a tough woven net for heavy-duty, dust-free sanding. Strong mesh resists wear and supports faster sanding on demanding jobs.

DIRECTIONS

- 1 Mount on a compatible Mirka grip backing pad; connect tool to a Mirka dust extractor when possible.
- 2 Use for coarse / heavy-duty stages (paint removal, hardwood, lacquer) per grit selection.
- 3 Allow net airflow — do not block extraction holes.
- 4 Replace when cut slows or mesh is damaged.
