STARKE HYDRATE WATERLESS WASH CONCENTRATE

SKU

HYDC16

16 OZ

CONCENTRATE

HYDC128

128 OZ

Waterless wash concentrate for gel coat, paint, metal, and plastic. Encapsulates dirt and leaves a soft polymer for slickness and gloss — a soap-wash substitute when water is limited.

PERFORMANCE

ROLE	Waterless wash / soap-wash substitute
SURFACES	Gel coat, paint, metal, plastic
FINISH	Soft polymer protection, slickness, depth of gloss
FORM	Concentrate — mix to ready-to-use
YIELD	$\frac{3}{4}$ oz concentrate → 16 oz RTU

APPLICATION

DILUTION	$\frac{3}{4}$ oz concentrate per 16 oz RTU
METHOD	Spray / wipe waterless wash (RTU)
USE WHEN	Limited water or quick maintenance wash
SIZES	16 oz and 128 oz concentrate

OVERVIEW

Hydrate Waterless Wash Concentrate mixes into a ready-to-use waterless cleaner for gel coat, paint, metal, and plastic. Starke's formula encapsulates dirt and grime while leaving a soft polymer that adds protection, extreme slickness, and improved depth of gloss — a practical substitute when a full soap wash is not practical. Concentrate yield: $\frac{3}{4}$ oz makes 16 oz of RTU.

DIRECTIONS

- 1 Mix $\frac{3}{4}$ oz concentrate with water to make 16 oz of ready-to-use Hydrate.
- 2 Spray RTU onto a cool surface. Work a small section with a clean microfiber so dirt is encapsulated in the towel — not dragged.
- 3 Flip or replace towels as they load. Buff dry with a clean microfiber for slickness and gloss.
- 4 Safe on gel coat, paint, metal, and plastic. Do not use as a substitute for correcting oxidized gel coat.
