STARKE HYDRO GUARD

WATER-BASED QUARTZ SPRAY SEALANT

SKU

HYDROG16

16 OZ

SPRAY SEALANT

HYDROG128

128 OZ

Concentrated water-based quartz spray sealant. Spray and wipe on a cool, dry surface for polymer-class gloss and hydrophobics without crème residue. Standalone 3–6 month sealant, or SiO₂ booster every 2–3 months over ceramic.

PERFORMANCE

ROLE	Spray-on quartz / SiO ₂ sealant · also coating booster
CHEMISTRY	Water-based quartz spray (label)
DURABILITY	Up to 3–6 months as a standalone sealant
BOOSTER USE	Every 2–3 months over ceramic to refresh hydrophobics
FINISH	High gloss and strong hydrophobics
ADVANTAGE	No hard-to-remove crème residue

APPLICATION

SURFACE	Cool, dry surface
APPLY	Spray and wipe — concentrated formula
USE CASES	Standalone sealant after polish, or booster over ceramic
MAINTENANCE WASH	Pure Clean (polymer) or Ultra Clean (ceramic)
PAIR WITH	Replenish for monthly SiO ₂ maintenance when needed

OVERVIEW

Hydro Guard is Starke's concentrated water-based quartz spray sealant. It delivers the longevity, gloss, and hydrophobics of crème polymers and paste waxes with a simple spray-and-wipe on a cool, dry surface — up to 3–6 months of protection. It also works as a SiO₂ booster every 2–3 months over ceramic coatings to refresh beading and add a sacrificial layer.

DIRECTIONS

- 1 Start with a clean, cool, dry surface (shade preferred).
- 2 Spray Hydro Guard lightly onto the panel or onto a microfiber.
- 3 Wipe evenly to a clear, glossy finish — no heavy residual to fight.
- 4 As a standalone sealant, expect up to 3–6 months of protection.
- 5 As a ceramic booster, reapply every 2–3 months with Replenish in the maintenance cycle.
- 6 Wash with Pure Clean or Ultra Clean so the sealant / coating chemistry stays intact.

SAFETY SNAPSHOT

CAUTION

SDS not published — treat as chemical product; follow label PPE.

APPEARANCE	Spray liquid
CHEMISTRY	Water-based quartz spray sealant
DURABILITY	3–6 months standalone
