OVERVIEW

Voodoo X Iron Remover is a product that is specially formulated to remove iron particles/contaminants from your vehicle's surface. Particles of iron can come from industrial fallout, brake dust, and other sources and can often embed itself into automotive paintwork. When iron bonds onto the surface of a vehicle, it can cause damage if untreated. This product is a safe alternative to acid washes because it is pH balanced.

DIRECTIONS

- 1 Work on a cool, shaded surface; rinse heavy dirt first if needed (mfr).
- 2 Spray Voodoo X onto the panel; allow dwell until iron contamination reacts/color changes (mfr).
- 3 Agitate gently with a wash mitt if desired, then rinse thoroughly.
- 4 Dry and proceed with polish/protection as needed. Wear gloves/eye protection (SDS).
