STARKE MILDEW CLEAN

PROFESSIONAL MOLD ELIMINATOR

SKU

MILDC16

16 OZ

HYPOCHLORITE

MILDC128

128 OZ

Sodium hypochlorite mold and mildew killer for marine vinyl, canvas, gel coat, and synthetics. Destroys the organism at the cellular level — not just the stain. Follow with Repel Fabric for prevention.

PERFORMANCE

ROLE	Kill established mold & mildew
CHEMISTRY	Professional-grade sodium hypochlorite
SURFACES	Vinyl, canvas, gel coat, synthetics
DWELL	5–20 minutes (severity severity)
FOLLOW WITH	Repel Fabric molecular barrier

APPLICATION

APPLY	Complete coverage over affected areas
AGITATE	Soft brush if needed, then rinse thoroughly
PPE	Face shield, nitrile gloves, protective clothing
SIZES	16 oz and 128 oz
NOTE	Very toxic to aquatic life — contain rinse water

OVERVIEW

Mildew Clean is the Starke Clean System's intervention for established mold and mildew on marine vinyl, canvas, gel coat, and synthetic surfaces. The sodium hypochlorite formula destroys mold at the cellular level — including root structures beneath the visible stain — instead of simply wiping spores to a new area. Allow 5–20 minutes of dwell, lightly agitate if needed, rinse thoroughly, then follow with Repel Fabric to resist future adhesion.

DIRECTIONS

1. Wear face shield, nitrile gloves, and protective clothing. Work with outdoor ventilation.
2. Spray for complete coverage over all affected areas — treat surrounding zones where spores may hide.
3. Allow 5–20 minutes of dwell depending on how established the growth is. Chemistry works visibly during dwell.
4. Light agitation with a soft brush if needed, then rinse thoroughly. Contain rinse water (aquatic toxicity).
5. Follow with Repel Fabric to create a molecular barrier against future mold adhesion.

SAFETY SNAPSHOT

DANGER		HMIS	1 H	0 F	0 P
Skin Corr. 1B · Aquatic Acute 1 · EUH031 (acid contact liberates toxic gas)					
APPEARANCE	Light green liquid				
ODOR	Slight chlorine-like				
DENSITY	1 relative				
FLASH POINT	107°C / 225°F				
TRANSPORT	Not regulated (per SDS)				
SDS SYS-007 rev 1.0 → 3/3/2021
