OVERVIEW

Lake Country MarineLine (Marine Master) is the manufacturer's advanced marine buffing system spanning rotary wool, DA wool, correcting foam, and finishing foam sized for gelcoat work on boats and RVs.

DIRECTIONS

- 1 Prime the pad with a thin, even layer of compound or polish across the face (CCS pockets help guide priming when present).
- 2 Attach the pad centered on a compatible hook-and-loop backing plate; pad diameter must meet or exceed the plate.
- 3 Work at manufacturer-recommended polisher speeds for the cut stage; keep the pad flat — do not tip the edge into the finish.
- 4 Clean residue regularly (System 4000® / Snappy Clean Boost™ per Lake Country pad-care instructions); air dry.
