NAUTICAL ONE HYDRO RINSE SiO₂ COATING - 128OZ

SPRAY-ON, RINSE-OFF SiO₂ CERAMIC COATING FOR WET HULLS

SKU

N1-101

128 OZ

Water-activated SiO₂ coating applied to a wet boat after washing — spray on and rinse off instead of rubbing and buffing. Causes water to bead and roll off so the boat stays cleaner between washes. Advanced UV protection; can be used in place of or in addition to a wax. Kit page: a single application provides durable UV protection for up to 6 months; use as little as once every 6 months.

PERFORMANCE

ROLE	Spray-on / rinse-off SiO ₂ ceramic coating (product page)
ACTIVATION	Water-activated; apply to wet surface after wash (product page)
CLAIMED DURABILITY (KIT PAGE)	Up to 6 months UV protection per application; as little as once every 6 months (kit page)
WORK AREA	No larger than 10 × 10 foot sections (product page)
GRIP SURFACES	Do not apply where grip is of concern (product page)

APPLICATION & PHYSICAL

METHOD	Shake well; spray on wet surface; immediately rinse with strong jet of water (product page)
SURFACE TEMP	Do not apply to a surface that is hot to the touch (product page)
WHEN	After washing, while surface is still wet (product page)
PACK SIZE (CATALOG)	128 oz

OVERVIEW

Water-activated SiO₂ coating applied to a wet boat after washing — spray on and rinse off instead of rubbing and buffing. Causes water to bead and roll off so the boat stays cleaner between washes. Advanced UV protection; can be used in place of or in addition to a wax. Kit page: a single application provides durable UV protection for up to 6 months; use as little as once every 6 months.

DIRECTIONS

- 1 Shake well. Do not apply to a surface that is hot to the touch.
- 2 Apply after you wash the boat, while the surface is still wet.
- 3 Working on an area no larger than 10 × 10 feet, spray Hydro Rinse directly onto the surface and immediately rinse off with a strong jet of water.
- 4 Do not apply to surfaces where grip is of concern.
