OVERVIEW

Pure Clean is the weekly wash soap in the Starke Clean System. The pH-neutral formula (SDS 7–9) cleans marine surfaces without stripping waxes, polymer sealants, or ceramic coatings. Use it on boats running Hyper Hold Pro or Hydro Guard. For ceramic-coated boats (Repel Pro, Liquid Thor), Starke points to Ultra Clean. Add Simple Clean when you need more cut on black streaks or heavy contamination.

DIRECTIONS

- 1 Fill a foam cannon or wash bucket. Add a small amount of Pure Clean (concentrated; no published ratio).
- 2 Work top to bottom with a microfiber mitt in straight lines.
- 3 Rinse clean.
- 4 For extra cut on black streaks or heavy soil, add Simple Clean to the same wash.
- 5 Ceramic-coated boats: Starke recommends Ultra Clean in place of Pure Clean for weekly SiO₂ reinforcement.
