STARKE RESTRUCTURE HEAVY CUT COMPOUND

SKU

RES16

16 OZ

HEAVY CUT

RES32

32 OZ

RES128

128 OZ

Heavy-cut compound for gel coat and marine paint. Removes heavy oxidation, flatness, and swirls. Follow with Elevate or Ignition, then protect.

PERFORMANCE

ROLE	Heavy cut — restore gel coat / marine paint shine
REMOVES	Heavy oxidation, flatness, and swirls
SURFACES	Gel coat and marine paint
NEXT STEP	Elevate (medium cut) or Ignition (finishing polish)
PROTECT	Liquid Thor or Repel Pro for UV protection

APPLICATION

USE	When the finish is oxidized, flat, or swirled and needs a heavy cut
FOLLOW	Refine swirls and holograms with Elevate or Ignition
SEAL	Liquid Thor or Repel Pro after correction
RPM / PAD	Not published on the Restructure product page
SIZES	16 oz · 32 oz · 128 oz

OVERVIEW

Restructure is Starke's heavy-cut compound for bringing gel coat and marine paint back from heavy oxidation, flatness, and swirls. After the damage is removed, Starke directs you to Elevate (medium cut) or Ignition (finishing polish) to refine holograms, then Liquid Thor or Repel Pro for UV protection so oxidation does not return. Machine speed and pad are not published on this product page — do not borrow Level R / Blaze numbers.

DIRECTIONS

- 1 Wash first. Do not compound over loose dirt.
- 2 Apply Restructure and work until heavy oxidation, flatness, and swirls are removed.
- 3 Follow with Elevate medium-cut compound or Ignition finishing polish to refine swirls and holograms.
- 4 Protect with Liquid Thor or Repel Pro for UV resistance and to slow re-oxidation.
- 5 Pad, machine, and RPM are not published on the Restructure page — follow the label and current Surface Restore process for successor compounds when applicable.
