THIN SAVER APPLICATOR — TERRY

SAVER APPLICATOR · THIN · TERRY · ~5" × 3.5" × 0.75"

SKU

SX101GYB

Thin terry Saver Applicator with hydrophobic barrier (mfr).

PERFORMANCE

TYPE	Thin terry Saver Applicator (mfr)
SIZE	~5" × 3.5" × 0.75" (mfr)
FACE	Terry (mfr)
BARRIER	Hydrophobic barrier (mfr)

OVERVIEW

Autofiber Saver Applicator adds a hydrophobic barrier between microfiber and sponge so low-viscosity coatings waste less product into the foam core (mfr). Thin terry profile (mfr SX101GYB-12).

DIRECTIONS

- 1 Apply coating/sealant sparingly to the microfiber face (barrier limits soak-through).
- 2 Spread in even overlapping passes; do not flood the sponge core.
- 3 Replace applicator when face loads or coating begins to tack on the pad.

APPLICATION & PHYSICAL

MDSC SKU	SX101GYB
USE	Coatings — lower profile pad (mfr)

SAFETY SNAPSHOT

**ARTICLE — NOT A CHEMICAL
PRODUCT; NO SDS TYPICALLY
PUBLISHED**

Textile / tool article. Follow Autofiber care guidance; wash microfiber separately without fabric softener.
