DREADNOUGHT · 20" × 30" · 1100 GSM · TWIST PILE

SKU

**TT1100GYB2030-1**

Long-pile twist-weave drying towel for streak-free drying (mfr).

## PERFORMANCE

|                |                                                                     |
|----------------|---------------------------------------------------------------------|
| TYPE           | Double-layer twist pile drying towel (mfr)                          |
| SIZE           | 20" × 30" (mfr)                                                     |
| GSM            | 1100 gsm (mfr)                                                      |
| CONSTRUCTION   | Long pile twist weave; interior sewn edges + center stitching (mfr) |
| BLEND (FAMILY) | 75/25 polyester/polyamide (Autofiber blend list – Dreadnought)      |

## APPLICATION & PHYSICAL

|               |                                                           |
|---------------|-----------------------------------------------------------|
| MDSC SKU      | TT1100GYB2030-1                                           |
| USE           | Dry paint, glass, plastic; works when slightly damp (mfr) |
| FOLD SECTIONS | Open sheet or folded twice for 8 sections (mfr)           |

## OVERVIEW

Autofiber Dreadnought uses a long-pile twist weave at 1100 gsm in a 20×30 double-layer towel with interior sewn edges. Soft glide with streak-free absorbency on paint, glass, and plastic (mfr).

## DIRECTIONS

- 1 Rinse vehicle; blot/drag towel across panels with light pressure.
- 2 Flip to a dry section as the face loads; fold for more faces as needed.
- 3 Launder microfiber separately; avoid fabric softener.

## SAFETY SNAPSHOT

**ARTICLE — NOT A CHEMICAL PRODUCT; NO SDS TYPICALLY PUBLISHED**

Textile / tool article. Follow Autofiber care guidance; wash microfiber separately without fabric softener.
